PROFESSIONAL SUMMARY

Self-taught Frontend Developer with approximately 2 years of hands-on experience building modern, responsive web applications. Proficient in React, TypeScript, and TailwindCSS, with a track record of delivering real-world client projects and full-stack platforms independently. Strong foundation in UI/UX design using Figma. Currently expanding into Next.js and Node.js backend development.

TECHNICAL SKILLS

Languages & Markup: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js (learning), Redux Toolkit, React Query, React Hook Form, Framer Motion, GSAP

Styling: TailwindCSS, Bootstrap, ShadCN UI, Sass

Tools & Platforms: Git, GitHub, Figma, Axios, Supabase, Strapi, Vercel

EXPERIENCE

Freelance Frontend Developer | Self-Employed

January 2024 – Present | Remote / Cairo, Egypt

- Designed and developed MR.Boxing, a production client website for a boxing gym and training academy, managing the full project lifecycle from Figma design to Vercel deployment.
- Delivering a second client project, handling requirements gathering, UI design, and full frontend implementation independently.
- Manage all client communication, iterative feedback cycles, and delivery timelines without supervision.

PROJECTS

NeoTech — Full-Stack E-Commerce Platform

Stack: React, TypeScript, Redux Toolkit, TailwindCSS, ShadCN UI, React Hook Form, React Router, Axios, Figma

- Built a fully featured e-commerce platform with product browsing, cart, checkout with payment integration, order tracking, and order cancellation.
- Developed a role-based admin dashboard (Admin and Super Admin tiers) with product CRUD operations, order status management, and sales analytics including top-product rankings and recent orders feed.
- Implemented user and admin account management: Super Admin can add, ban/unban, or remove admins and users.

MR.Boxing — Client Project, Boxing Academy Website

Stack: React, TailwindCSS, Framer Motion, Figma

- Designed the full UI in Figma, then built and deployed the production React application for a paying client.
- Showcased the academy's awards, training plans, and class offerings with polished Framer Motion animations.
- Site is currently live in production.

Job Portal — Full-Stack Job Board

Stack: React, Bootstrap, Sass, Supabase, Clerk

- Built a two-sided marketplace where employers post job openings and job seekers browse, apply, and manage applications.
- Implemented employer dashboard for posting jobs, reviewing applicants, and profile management.
- Integrated Supabase for database and backend logic, and Clerk for authentication.

Faculty of Media Website — UI/UX Design Concept

Tool: Figma

- Designed a full conceptual redesign of a university faculty website in Figma, covering home, about, student activities, and news sections.

EDUCATION

Faculty of Media | Cairo, Egypt

Undergraduate Student — Year 1, entering Year 2 in September 2025

Self-Directed Frontend Development Education

2022 – Present | Online resources, official documentation, and project-based learning

- Independently studied and applied the full modern React ecosystem through structured self-learning and real deliverables.
- Currently expanding into Next.js and Node.js/Express for backend development.
